## PERSONAL PROFILE

I'm a software engineer who loves combining creative ideas with tech skills. I've led team projects and am good at finishing strong software work even with tight deadlines.

## SUMMARY OF QUALIFICATIONS

- Strong proficiency in Java, JavaScript, and MySQL Qualification
- Exceptional team leadership and project management skills
- Demonstrated ability in optimizing workflows for efficiency
- Excellent problem-solving and analytical thinking
- Solid foundation in software development and design

## EDUCATION

### Software Engineering Technician

Centennial College, Toronto, Ontario, Canada.

September 2022 – January 2024

During my studies at Centennial College, I've not only enhanced my technical expertise but also developed a strategic approach to complex project management. A notable accomplishment was leading a team in the successful completion of four major projects, thereby receiving commendations from professors.

### Relevant Courses Completed:

- Java Development
- JavaScript Web Development
- MySQL Database Management

### Key Achievements:

- Maintained a consistent GPA of 4.0 throughout the program
- Led teams to successfully complete intricate projects within stipulated timelines
- Recognized by instructors and professors for outstanding performance and commitment to coursework

**Bootcamp program of Java**

ITWILL, Busan, Busan, South Korea

January 2022 – July 2022

My time at ITWILL Bootcamp was pivotal in improving my foundational skills in Java and JavaScript. The hands-on projects and real-time challenges shaped me into a more resilient and adaptive software developer.

**Relevant Courses Completed:**

- Java Fundamentals
- JavaScript and Spring Boot MVC

**Key Achievements:**

- Successfully completed making a community website project within a challenging deadline

## WORK HISTORY

**KT Sonic Boom**  
**Busan, South Korea**  
**Event Staff**

**July 2019 – April 2020**

At the professional basketball team named KT Sonic Boom in South Korea, my primary responsibility was ensuring the seamless management of live events. This role helped me improve my attention to detail, particularly when verifying credentials, and refined my crowd management skills, emphasizing safety and efficiency.

### **Key Achievements:**

- Successfully oversaw live events without any major disruptions throughout the season
- Recognized for diligent management and coordination skills

**Fairfield By Marriott**  
**Busan, South Korea**  
**Front Desk Receptionist**

**May 2020 – March 2021**

Serving at the Fairfield by Marriott's front desk, I honed my customer service skills, ensuring every guest felt welcomed and their needs were promptly addressed.

### **Key Achievements:**

- Implemented a refined guest check-in experience, resulting in a 20% increase in customer satisfaction scores
- Efficiently handled high-volume calls, streamlining guest inquiries and concerns

## TECHNICAL SKILLS SUMMARY

**Languages:** Java, JavaScript, C#, Python, HTML, CSS

**Database Management:** MySQL, MongoDB

**Software Development Tools:** Spring Framework, Eclipse, MS Visual Studio, MS Visual Studio code, SQL Developer, GitHub

## PROFESSIONAL AFFILIATIONS

- N/A

## PERSONAL INTERESTS / VOLUNTEER WORK

- Enjoy writing codes to create something
- Learning and enhancing new functionality of frameworks and web development skills
- Playing sports (Golf, Soccer, Basketball)
- Big fan of films, TV shows and music
